Glimmers of light in spring: the n'ice pen in fresh new colours

Spring has sprung on your desktop: Faber-Castell is launching the n'ice pen in rich colours to instantly brighten your day. The end cap in Plum, Coral and Petrol brings a fresh and cheerful splash of colour to this modern pen.

The n'ice pen boasts a futuristic design and ergonomic shape. The colourful plastic end cap is a nice contrast to the chrome-plated barrel. The pen has a twist mechanism to extend and retract the black, very smooth-running and waterproof magnum refill.
